CUSTOMER FEEDBACK

Mr. Vinod Sehgal

"Why I chose Raheja Navodaya as my dream home was because of the developer's reputation, the luxuries on offer in the project & the location of the project."

"We have chosen Navodaya since it seemed like an ideal home for us. Its location in the immediate vicinity of Manesar and its proximity to Gurgaon makes it a very suitable housing destination. Moreover, we really liked the layout of the apartments because of their optimum space utilization and thoughtful design. In any house purchase decision, the reputation and project track record of the builder is of paramount importance. And on this parameter, we felt that Raheja Developers has a brilliant score. They have maintained a tradition of excellence in all their projects and their sense of commitment and customer-centric approach is highly commendable."

AFFORDABILITY

As responsible developers we realize the value of your hard earned money & the effort which goes into setting aside savings for a real home of your dreams. That's the reason why all our offerings are attractively priced. If three words could describe Sampada, they would be "Affordable Luxury Homes". Homes which provide you all the comforts of modern day living at a price tag which is not too heavy on your pocket.

SOCIAL WELFARE

We realise that our buildings are built with the sweat and toil of poor and impoverished laborers who work day and night to ensure the timely delivery of the project. As a mark of appreciation for their contribution, we are providing the children of the laborers day care centres on all our sites where they are provided with nutrition, basic education and medical facilities free of cost.

GREEN HOMES

Sampada is being built under the guidance of the Indian Green Building Council (IGBC). Every apartment at Sampada, is a 'Green Home'. A concept that helps use energy and resources efficiently, thereby creating a healthier environment that is sensitive to air quality, lighting, acoustics and aesthetics. The complex has already been evaluated and assigned " Gold Rating" by Ministry of Environment. We are committed to follow highest environmental practices on water & energy conservation as well as labor safety and welfare practices, because a clean, green & sustainable environment created by a passionate team makes A HAPPY HOME.

INVESTMENT OPPORTUNITY

Sampada is located at one of the most sought after destinations in the NCR which is going to be the foremost industrial hub in the future. If we look back a couple of decades, what started with just one factory of Maruti, has today emerged as the "New millennium City of Gurgaon" with industrial estates of Manesar and Dharuhera catering to various corporates and business houses. HSIIDC has already acquired 1746 acres in IMT Manesar and another 3325 acres is under acquisition for further industrialization. Various multinational companies and business houses are already established in the area and it is expected that due to the further economic revamping, an approximate work force of over 10 lacs technicians and executives would be having gainful employment in these industries. It is shocking that planned quality housing availability for this workforce in and around this area is virtually NIL. Thus, this area is likely to see a huge demand for residential property from the workforce to be employed by these companies.

Gurgaon today accounts for more than 50% of Haryana's economic activity which is poised to grow by over 400% in the coming decade. This surge in demand is likely to create a supply deficit thus creating tremendous value for your prized possession

"your Sampada."
